9. Grant      Role: PI      09/08-9/13  
Funding source: Centers for Disease Control and Prevention (CDC)  
Study: Randomized controlled trial to evaluate the efficacy of motivational interviewing in women patients of childbearing ages who are at risk alcohol drinkers; study includes a smoking cessation intervention.

intravenous ketamine as adjunctive therapy to a SSRI for severely symptomatic patients with MDD.

BCM IRB Protocol # H26488

Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas

14. R01 Grant                          Role: Co-PI                          08/10-07/14

Funding source: National Institute of Health (NIH), R01MH085054, \$750,000.00

Study: Efficacy and tolerability of Riluzole in treatment resistant depression; four site NIH collaborative R01 to study the efficacy and safety of the glutamate modulator Riluzole in patients with treatment resistant depression and to investigate biomarkers predictive of response.

BCM IRB Protocol #H-26581

Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas

15. R01 Grant                          Role: Co-PI                          07/09-04/14

Funding source: National Institute of Mental Health (NIMH), R01MH081870-01A2, \$1,064,832.00

Study: Optimization of IV Ketamine for treatment resistant major depression. Test the safety, tolerability, and acute efficacy of a single subanesthetic dose of intravenous Ketamine in patients with treatment resistant major depressive disorder by using a randomized, triple-blind, midazolam controlled, parallel-arm design.

BCM IRB Protocol #H-26303

Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas

16. Grant                                  Role: Co-PI                          07/11-01/13

Funding source: Bristol-Myers Squibb Company, CN-162-010, \$207,285.00

Study: A multicenter, randomized, double-blind 58-week rollover study to assess the safety and tolerability of BMS-820836 in patients with treatment resistant major depression.

BCM IRB Protocol # H-29010

Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas

17. Grant Role: Co-PI 07/11-01/13  
Funding source: Bristol-Myers Squibb Company, CN-162-007, \$73,737.00  
Study: A multicenter, randomized, double-blind, active controlled, comparative, fixed dose, dose response study of the efficacy and safety of BMS-820836 in patients with treatment resistant major depression.  
BCM IRB Protocol #H-28942  
Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas
18. Grant Role: Co-PI 11/11-12/12  
Funding source: F. Hoffman La-Roche Ltd., BP-25712, \$129,031.00  
Study: A multicenter, randomized, double blind, placebo controlled parallel group study to investigate the efficacy and safety of RO4005819 versus placebo as adjunctive therapy in patients with treatment refractory major depressive disorder.  
BCM IRB Protocol #H-29991  
Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas
19. Cultural Research Role: PI 07/12-02/14  
Project  
Funding source: Rice University and Baylor College of Medicine  
Study: Assessing cultural adaptability of the community behavioral health program's integrated care model. Evaluation of patient satisfaction and cultural aspects that impact treatment of Hispanic patients at primary care centers within the Community Behavioral Health Program (CBHP) within Harris Health System.  
BCM IRB #H-31331  
Menninger Department of Psychiatry, Baylor College of Medicine, Houston, Texas
20. Integrated Care Services Role: Consultant 11/17-18  
Funding Source: Community Health Centers, Inc. Oklahoma  
Task: Providing telephone psychiatric coverage to primary care physicians seeing patients.
21. Oklahoma City Detention Center Role: OU Project PI and 07/01/18-11/20  
Attending Psychiatrist

Founding source: Turn Key Health

Task: Providing correctional psychiatric and mental health services at the Oklahoma City Detention Center, Oklahoma City, OK
